

PATHWAYS TO WELLNESS

Integrating Refugee Health and Well-Being

Refugee Health Screener-15 (RHS-15) French Version

Bilingual versions of the RHS-15 have been translated by an iterative process involving experts in the field, professional translators, and members of the refugee community so that each question is asked correctly according to language and culture. The English text is provided for reference only; using the English alone negates the sensitivity of this instrument.

Les symptômes suivant peuvent être liés aux expériences traumatisantes (moments difficiles) vécues pendant la guerre et votre déplacement à cause de la guerre. Combien de fois, au cours du mois dernier, avez-vous:

The following symptoms may be related to traumatic experiences during war and migration. How much in the past month have you:

10. Eu l'expérience de revivre le traumatisme (moment difficile), ou avez agi ou senti que vous reviviez ces moments difficiles?

0 1 2 3 4

Had the experience of reliving the trauma; acting or feeling as if it were happening again?

11. Eu des réactions PHYSIQUES (par exemple: transpiration ou battements de cœur plus rapides) quand vous vous rappelez du traumatisme (moment difficile)?

0 1 2 3 4

Been having physical reactions (for example, break out in a sweat, heart beats fast) when reminded of the trauma?

12. Eu le sentiment de ne sentir aucune émotion ou de sentir émotionnellement insensible (par exemple, vous sentir triste sans pouvoir pleurer ou incapable d'avoir des sentiments affectueux)?

0 1 2 3 4

Felt emotionally numb (for example, feel sad but can't cry, unable to have loving feelings)?

13. Eté plus nerveux(se) ou sursauté plus facilement (par exemple, quand quelqu'un vous approche par derrière)?

0 1 2 3 4

Been jumpier, more easily startled (for example, when someone walks up behind you)?
